## JUST RELAXING WITHOUT PRESSURE

sheared lambskin  
on your horses'  
spinal area

On all our **halfpads**, **contoured pads** and **saddle pads** the lamb fur along the horses' spine is shorn down to a thickness of **10 mm**.

- > This maximises the contact and **therapeutic effect** of the lambskin in this **particularly sensitive** and **important area**.
- > The mounting of the saddle over the pad is **quick, easy** and **always in alignment**.
